DETAILED ACTION

RESTRICTION/ELECTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-20 and 25, drawn to methods of design and modeling arbiter/arbitrator or initiator or router, classified in class 703, subclass 14.
 - II. Claims 21-23, drawn to an end product arbitrator device, classified in class 370, subclass 351.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the method of designing and modeling integrated circuits can be used to make other circuits, not only an arbitrator, initiator or router. Arbitrators, initiators and routers have been made by other methods, separate and distinct from the methods claimed in group I.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2123

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 C.F.R. 1.143).

6. Examiner has not contacted the Attorney of record since in cases where the Restriction is deemed complex the attorney or agent should be afforded the benefit of receiving the action for careful review and time to formulate a response. This Restriction/Election is deemed complex by the Examiner. See M.P.E.P 812.01.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William D. Thomson whose telephone number is 703-305-0022. The examiner can normally be reached on 8:30-3:30 Tuesday-Friday.
